

# HELPING is the key word!

Helping others so they can help someone else is the key to missions work.

The recent trip and work to Canyon Day Miracle Church, on the White Mountain Apache Indian Reservation, was successful. *HELPING!* That's what took place.

The people of Canyon Day Miracle, don't just "take", but they "give", by helping others on the reservation. They are a church that reaches out to those in need.

The new stove, the doors, the cabinets and new kitchen floor are only physical ways we helped them. The real help in the ministry that continues! To God be the glory!

You helped with your financial donations, the team helped by giving of their time, talents and physical work. Now our brothers and sisters at Canyon Day will help others!

Thanks for giving into His work!

Ron Davis

New cabinets installed in classroom. Made by Sclabach Wood Design of Baltic, Ohio.

New 6 burner gas stove & tables will enable the people to provide food for the community.

The tile floor being laid in the kitchen.

New doors are an improvement cosmetically, & also helps with heating & cooling.
